

# **STARKFISH TRAVEL**

## **PRECISION MATCH MAKING FOR FISHERMEN**

### **Corporate Fishing Packages**

Whether sealing a new deal with a prospect or rewarding your executive team, destination fishing packages provide an ideal platform for accelerating business relationships. When properly executed, corporate fishing packages provide:

- 1. Quality face time with colleagues and clients.**
- 2. Relationship building.**
- 3. Incredible experiences that make people want to do business with you.**

*An improperly matched trip, however, can have the opposite effect.*

We offer custom packaging services for corporate fishing trips that account for: **Group Size; Intimacy desired**—rent the entire operation or be one of many groups; **Culinary and Ambience**—fishing runs the gambit; our match will suit you; **Budget; Comfort of the Experience** and more.

### **The Starkfish Travel Process**

The first step is listening. Who is coming? Aside from fishing, what else would you like the trip to provide? What are you looking to spend? We then provide a number of options, discussing each in detail.

**Value Added Package Options:** *Cobranded to leave clients with lasting impression of their trip and your brand.* There is too much riding on a corporate fishing trip to leave anything to chance.

- Concierge to accompany your group, hosting and guiding the experience.
- Professional photographers/ video professionals to document your trip in high definition.
- Custom photo books that tell the story of your brand and the trip.
- Shipment of fiberglass mounts to your clients, commemorating their catch (and your brand) for a lifetime.
- Instructional and educational packages sent to clients during the lead up to the trip.
